HIKING

All over Gran Canaria there are lots of hiking trails to choose from, from easy and simple to more tough and demanding.

A local guide is needed for all types of hikes.

One of our most popular hike, a nice trail with varied nature and fantastic views. The Camino de la Plata is part of a network of paths that today exist all over Gran Canaria.

Teror

A pilgrimage to the charming and elevated village of Teror and the island's most visited church, La Basílica de Nuestra Señora de Pino.

The Red Canyon

Roque Nublo

A walking tour high up in the mountains with views in all directions, nature experiences and a walk through several of Gran Canaria's climate zones.

Las Lagunetas
